

Dear Owner,

In the spring of 2010, Schuyler County and Arbor Development will be applying for funding for a Housing Rehabilitation Grant for Schuyler County. If awarded, this program would provide grant funds to low income homeowners for septic & water well repair or replacements.

As part of the grant application, we need to identify eligible owners who would be interested in applying if the program is funded.

Eligible owner occupants of single family homes would have to meet income guidelines and have homeowners insurance. In addition, taxes and mortgage payments must be current. Approved applicants receiving grant monies would be required to sign a temporary lien (mortgage) on the property for a period of not less than 5 years. This lien states that the owner will continue to live in the home and not sell or transfer the property for this time period or they would owe all or part of the money back at that time. At the end of the time period, the lien would be considered satisfied. No payments are required if these terms are met.

If you would be interested in applying for this program if it is funded, please fill out the attached form and return it before April 15, 2010. By submitting this letter of interest you are not obligated in any way to participate in the program. If the program is funded, you will be notified at that time and an application will be mailed to you.
